⁵ Faraone S V., Banaschewski T., Coghill D., Zheng Y., Biederman J., Bellgrove MA, et al. The World Federation of ADHD International Consensus Statement: 208 Evidence-based conclusions about the disorder. *Neurosci Biobehav Rev.* 2021 Sep 1;128:789-818.

⁶ Takeda provided regional-level statistics on the total population

⁷ EU Clinical Trials Register. Last accessed November 2022. Available at: <https://www.clinicaltrialsregister.eu/>

*Treating to 70% of the estimated prevalence of patients means increasing rates of diagnosis meaning that the percentage of patients increases by 30% from 40-70 leading to a higher number of patients being treated in the health system).

**Adult patient population is calculated by multiplying the ADHD prevalence rate from Faraone et al, 2021 by the country's 18-65 population data (see endnotes).
